SOUTH GATE POLICE PARTNERS WITH PROJECT CHILDSAFE[®] FOR NATIONAL SAFETY MONTH

SOUTH GATE POLICE TO MAKE FIREARM SAFETY KITS AVAILABLE IN SOUTH GATE THROUGH PARTNERSHIP WITH PROJECT CHILDSAFE[®]

[South Gate, CA] – South Gate Police, in conjunction with Project ChildSafe, the nationwide firearms safety education program, will distribute free firearms safety kits to local residents. The safety kits include a cable-style gun lock and will be distributed for National Safety Month this June at the South Gate Police Department. The locks can be obtained free of charge at the front counter of the police department.

Project ChildSafe, a program developed by the National Shooting Sports Foundation (NSSF), educates community members of safe firearms handling practices and works to reduce firearms accidents in local communities. Project ChildSafe has distributed more than 37 million firearm safety kits throughout the country since 2003. The program is supported by the U.S. Department of Justice's Bureau of Justice Assistance and the firearms industry.

“National Safety Month is an important reminder that safe firearms practices and storage should be practiced all year long, so we can reduce the number of accidents and create a safer environment for our community,” said Chief Randy Davis. Project ChildSafe has provided the South Gate Police Department with several Project ChildSafe safety kits that are available to South Gate residents. The kits include a safety curriculum and a cable-style gun lock. The locks fit on most handguns, rifles and shotguns.”

Partnering with Project ChildSafe allows South Gate Police to participate in a national effort to promote firearms safety education to all gun owners. The program distributes gun lock safety kits to all 50 states and five U.S. territories.

“We are pleased to have South Gate Police as a Project ChildSafe partner,” said Bill Brassard Jr., director of Project ChildSafe. “Project ChildSafe is an important step forward in helping ensure that all firearm owners fully understand their responsibilities with respect to the safe handling and storage of firearms.”
