

Catalytic Converter Theft Prevention

SUVs and other vehicles with high clearance are especially vulnerable

- Park in secured garage or a well lit area where you can keep an eye on your vehicle
- Have your catalytic converter etched with the VIN it came from, owner's phone number, or license plate number
- Install a car alarm and adjust the alarm to register vibrations
- Install a catalytic converter theft protection device
- Be cautious of suspicious individuals that are looking into and under vehicles
- Keep yourself and your community informed on crime trends by joining a Neighborhood Watch
